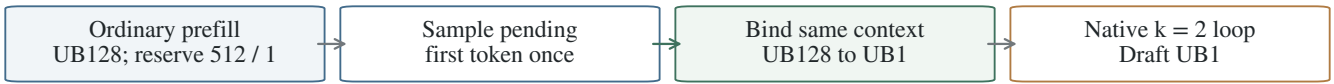
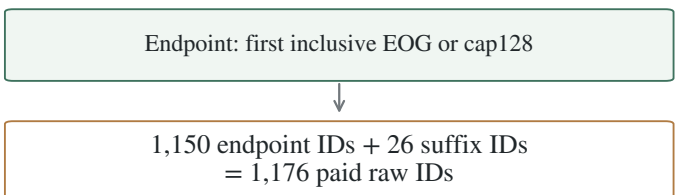
(A) Bind phases without a second target context



Retain target KV and the live sampler; consume / accept the saved token once.

Reservation values are total / per sequence. Capture-off omits witness readbacks.

(B) Qualify the endpoint; pay all raw work



Aggregate over 30 formal candidate responses.

(C) Keep the missing unit visible

Formal matrix: 119 / 120 payloads

Path	Rows	Task pairs
R: ordinary	30	15
M: matched	30	15
C: candidate	30	15
Old N1	29	14

Old N1 / MBPP400 / round 1: unavailable
